Engage your students with videos, audio and various interactive activities with instant automated marking and awards. Create an interactive learning experience - instantly play audio and video, launch fun activities and games, show answers, present scripts and expand images for discussion, all from the front of the class. Values lessons teach children how to behave both inside and outside the classroom. Content Hello. Track and analyze your students' progress and scores using the integrated Gradebook with a variety of easy to use, visual reports that can be shared with students and parents. Inquiry-based learning encourages student involvement, promotes collaboration and teamwork, and pushes student to think creatively. 21st Century Skills are an integral part of the Oxford Discover course. It enables them to ask their own questions, find their own answers, and explore the world around them. This approach to language learning and literacy, supported by a controlled grammar and skills syllabus, helps students achieve near-native fluency in English. Oxford Discover gives teachers the tools to develop children's 21st century skills, creating young thinkers with great futures. Oxford Discover Foundation taps into children's natural curiosity, asking a question such as 'who makes you happy?' or 'what do our senses tell us?' as the focus for each unit. Oxford Discover supports an inquiry-based approach to learning English. Every unit has two pages devoted comprehensively to communication, but these skills are also utilized in general tasks and exercises. Collaboration Oxford Discover offers opportunities for collaboration in every lesson, with students working together in pairs, small groups, or as an entire class.
